Deadline	Program	Opportunity Description
SSHRC 2013-14		
Continuous	Connection Grants	Connection Grants support workshops, colloquiums, conferences, forums, summer institutes or other events or outreach activities.
NOI: August 15 **Internal review: September 30** Application: October 15	Insight Grant -	Insight Grants provide longer-term funding for mature research projects proposed by individuals or teams. Insight Grants may be valued at up to $500,000 over three to five years.
February 1	Insight Development Grant	Insight Development Grants support research in its initial stages and help researchers develop new research questions and approaches. Funding is provided for short-term research development projects, of up to two years, proposed by individuals or teams.
November 1	Partnership Grants	Partnership Grants are awarded to institutions, to support initiatives that advance research and/or knowledge mobilization activities. They provide funds of between $500,000 and $2.5 million over four to seven years and follow a two-stage application process: Stage 1—Letter of Intent; and Stage 2—Formal Application. Only those proposals awarded a Letter of Intent grant (valued at $20,000)

		will be eligible to submit a Formal Application.
February 15	Partnership Grants — LOI	See above.
November 30	Partnership Development Grant	Partnership Development Grants are awarded to individuals, to design and test new partnership approaches for research and/or related activities. They provide funds of between $75,000 and $200,000 over one to three years and follow a standard, one-stage application process.
Continuous	Automotive Partnership Canada	APC's emphasis is on transformative, integrated projects or programs that will give Canadian industry and academia the resources required to further their automotive research and development ambitions. Smaller projects are also eligible for support through APC.
Continuous	Canadian Initiative on Social Statistics Access to Research Data Centres	Application process and guidelines are based on the affiliation of the Principal Investigator and the type of research being conducted at a Research Data Centre.
Continuous	Aid to Scholarly Publications (ASPP)	ASPP is a competitive funding program designed to assist with the publication of scholarly books on topics in the humanities and social sciences.

CIHR **2013-14**	**Selected opportunities**	**Check the CIHR website often as new ones are posted frequently!**
October 15	Dissemination Events: Fall 2013 Competition	Events/activities may focus on, but are not limited to, the following: • Education of groups such as patients, health professionals, community organizations, policy-makers, the general public; • Knowledge dissemination that will inform practice, clinical care, partnership best practices, policy and decision making; • Dissemination and/or discussion of research findings at scientific meetings, workshops, conferences, congresses or symposia. **Note:** Please note that primary research or primary data collection will not be supported through this funding opportunity.
November 15	Fellowship: 2013-2014	Fellowships provide support for highly qualified candidates in all areas of health research at the post-PhD or post-health professional degree stages to add to their experience by engaging in health research either in Canada or abroad.
November 1	Knowledge Synthesis Grant: Fall 2013 Competition)	This funding opportunity will support two types of projects: knowledge syntheses and scoping reviews.
December 2	New Investigator Salary Award: 2013-2014	The objective of the New Investigator Salary Award program is to provide outstanding new investigators with the opportunity to develop and demonstrate their independence in initiating and conducting health research through provision of a contribution to their salary. A new investigator is defined as a researcher who has held a full time research appointment for a period of 0 to 60 months.
Registration: August 15 Full application: September 16	Operating Grant: 2013-2014	The CIHR Open Operating Grant Program (OOGP) provides operating funds to support research proposals in all areas of health research including randomized controlled trials.

December 2	Operating Grant: Knowledge to Action (2013-2014)	The intent of this funding opportunity is to accelerate the translation of knowledge by linking researchers and knowledge users to move knowledge into action.
LOI: September 11 Invited Application: December 6	Operating Grant: Population Health Intervention Research (Fall 2013 Competition)	The purpose of this funding opportunity is to support the prompt initiation of population health intervention research on rapidly unfolding programs, policies and resource distribution approaches that have been initiated by others (e.g., policy makers) and have the potential to impact health and health equity at the population level.
Registration/LOI: August 15 Full application: September 16	Operating Grant: Industry-Partnered Collaborative Research (Fall 2013 Competition)	The Industry-Partnered Collaborative Research Operating Grant program provides funding for collaborative research projects involving the academic community and Canadian industry partners sharing an interest in health R&D. The research planned should be beneficial to both parties, while improving the quality of health of Canadians. Projects may be initiated by either party; however, the academic researcher is responsible for applying for the grant.
November 1	Partnerships for Health System Improvement: 2013-2014	PHSI funds teams of decision makers and researchers to conduct applied health services and policy research. Because they participate throughout the research process, the research results are more likely to be relevant to and used by decision makers.
October 15	Planning Grants: Fall 2013 Competition	The specific objective of this funding opportunity is to provide support for planning activities, partnership development and/or increasing the team's understanding of the health research landscape that will contribute to the advancement of research consistent with the mandate of CIHR.
September 3	Proof of Principle: Phase I (Fall 2013 Competition)	The Proof of Principle (POP) Phase I program provides funding for proof of principle research projects of up to 12 months duration designed to advance discoveries/inventions towards commercializable technologies, with a view to attract new investment, create new science-based businesses, organizations and initiatives, and ultimately improve health outcomes for Canadians.
September 3	Proof of Principle: Phase II (Fall 2013 Competition)	The Proof of Principle (POP) Phase II program provides funding for proof of principle research projects up to 12 months in duration at the co-investment stage undertaking follow-on proof of principle activities in partnership with a non-academic investor. This funding opportunity is aimed at providing a platform to better enable the academic institution/researcher to move the discovery/invention further down the innovation pipeline
