Department:	Mental Health and Addictions Services	**Site:**	St. Catharines Site
Status:	Full-Time	**Union:**	OPSEU
Hours of Work:	75 hours per pay	**Wage Range:**	$28.4900 - $32.8100 per hour
Posted Date:	April 11, 2014	**Closing Date & Time:**	April 17, 2014 at 1600 hours

POSITION OBJECTIVE

The Mental Health and Addictions Program is currently seeking a CTRS certified Project Coordinator who will be responsible for the supervision of Brock University Recreation Therapy student interns for inpatient and outpatient Mental Health programs. The Project Coordinator will be responsible for monitoring students' progress, coordinate secondary supervisors and complete all evaluation materials and weekly reports pertaining to the field placement experience and ensuring students are exposed to all aspects of the program. The Project Coordinator is also an active member of the interdisciplinary team and participates in planning, evaluating and delivering patient care plans and programs with emphasis on targeting interventions that improve functioning and reduce the effects of mental illness. Evening and weekend work may be required to assist with the facilitation of the program.

QUALIFICATIONS

- Graduate of an accredited university Program for Recreation Therapy with a focus on therapeutic recreation.
- Must be CTRS certified for a minimum of one year required.
- Demonstrated ability to coordinate and supervise student interns.
- Two years recent experience in a clinical mental health setting required.
- Experience developing and administering assessments, individual treatment plans and therapeutic programming with the serious mentally ill population.
- Food Handlers Certificate required.
- CPR and First Aid certification.
- Demonstrated ability to develop, implement, facilitate and evaluate various evidence based therapeutic recreational and educational programs.
- Must have strong working knowledge of the theory and practices of Therapeutic recreation, Psycho/Social Rehabilitation and Mental Health Recovery Model
- Demonstrated ability to form sustainable linkages with community services, agencies and programs
- Evidence of effective organizational, interpersonal, communication, judgment, critical thinking and decision making skills.
- Ability to work effectively within an inter-disciplinary team, is self-directed and is able to work with minimal supervision.
- Proficiency in the use of computer applications including Microsoft Office
- Consistent and regular attendance required.
