

# Service-Learning Partnership Opportunity

**Health and Safety Policy** 

## Service-Learning

Service-Learning at Goodman is a project-based teaching-learning strategy that connects classroom theory to challenges experienced in the "real world".

## Partnership Opportunity - Free Health and Safety Policy Statement

Brock 3rd Year Business Students available to any area non-profit and small for-profits (under 10 employees) this Fall. Teams of students (4-5) will be given the option to participate in a service-learning placement with area businesses for the purpose writing a Health and Safety policy statement for one safety issue within the organization/business. It has to be about something specific - be it WHMIS, working alone, violence in the workplace, sexual harassment, bullying or something else related to Health & Safety within the organization. Unfortunately, it cannot be a fire safety policy because of the heavy legislative requirements.

#### How this works

The student team will interview their client and if necessary visit the site. Then the team will research the safety topic and draft a policy statement

You will receive a final draft by Nov. 13th and will be invited to attend while the team presents their policy to their peers starting Nov 20<sup>th</sup> at 5 pm (attendance is optional for the presentations but meaningful for the students). This is a good opportunity to ask questions with the Professor available to comment. These dates are approximate and will be confirmed at the start of the projects.

### Your Commitment

Projects are tied to a student's overall course mark and must be completed within a 2-month time period, and must be managed around varying student schedules. We ask our partners to ensure timely transfer of information and flexibility in coordinating meetings to support project success.

#### Interested?

Organizations/businesses interested in participating can follow this link (or cut and paste it into your browser): https://survey.bus.brocku.ca/TakeSurvey.aspx?SurveyID=981M9l4

...and register your request on-line.

There are a limited number of spaces available.
