- Program planners are designed to help students stay on track with course requirements for degrees within the Department of Health Sciences.
- Planners are available for each of the specialized programs of study in Child Health (Honours), Community Health (Pass or Articulation Agreements), Medical Sciences (Honours) and Public Health (Honours). Students in the Biomedical Sciences program are asked to speak with the Biology Department Academic Advisor regarding their program requirements.
- The planners are organized on the website by Program Requirement Year. The Program Requirement Year is the year a student enters the program as a Major. Students must follow the program outlined in the Brock Undergraduate Calendar (please refer to the online Brock Undergraduate Calendar for the most up-to-date information) that corresponds to the student's Program Requirement Year (e.g. students who start in September 2012 as Medical Sciences majors must follow the program prescribed in the Brock 2012/13 Undergraduate Calendar). Please note that students who interrupt their studies for one or more years become subject to the calendar regulations in effect at the time of their re-registration.
- If changes have been made from the program requirements outlined in the Brock Undergraduate Calendar, the changes are reflected on the program planners (e.g. changes in course codes).
- When completing a program planner it is recommended that students confirm their Program Requirement Year and the courses they have successfully completed by checking their student record on the Brock Portal system (<https://my.brocku.ca/portal/>).
- It is recommended that all students complete a program planner prior to booking an appointment for program advising and that they bring their completed planner with them to the appointment.
- It is the responsibility of each student to ensure that the courses selected meet their degree requirements and that they adhere to restrictions, course prerequisites and published deadlines. All courses and programs are subject to enrolment limitations. Not all HLSC courses will be offered every academic year.
- Shadowing a program does not guarantee admission into it.
