Viticulture  
Institute

Brock University

Brock University's Cool Climate Oenology and Viticulture Institute (CCOVI) is pleased to announce the 10 anniversary instalment of the Triggs International Premium Vinifera Lecture Series. The lecture series presents a leading international viticultural speaker to lend their expertise through vineyard visits and a public lecture on key issues relating to premium vinifera grape production.

BASF is proud to sponsor this national lecture series.

## 2017 Featured Speaker

### Stefano Poni, PhD

Full professor of Viticulture and Chair of the Instituto of Frutti-Viticultura of the Università Cattolica del Sacro Cuore of Piacenza, Italy

## Topic

### Canopy management—Making it work

Canopy management takes many forms with different outcomes from different practices. Stefano Poni will address the impacts of different practices on managing overall crop development, methods to delay or enhance fruit maturity and timings that will influence final crop quality.

**Best timing + best practices = best quality and vine health!**

Join us for what will surely be a most informative experience.

Details, including speaker's biography and more, are posted at: [brocku.ca/ccovi](http://brocku.ca/ccovi)

All sessions are free, however please RSVP to [info@bcwgc.org](mailto:info@bcwgc.org) by August 2.
