Brock to host first international Riesling Experience

In July Brock University will host the first ever Riesling Experience, an international wine tasting and educational event co-organised by Brock’s Cool Climate Oenology and Viticulture Institute, the Grape Growers of Ontario and the Wine Council of Ontario.

Participants will taste Rieslings from Ontario and around the world while learning more about the wine variety from expert producers.

Riesling – the fastest growing white wine in terms of worldwide sales volume – is a variety that the cool climate winegrowing regions of Ontario produce as well as or better than anywhere else on the planet.

WHERE: Room 203, Academic South, Brock University, 500 Glenridge Ave., St. Catharines, Ont. See campus map.
