Brock University

Brock University's Cool Climate Oenology and Viticulture Institute (CCOVI) is pleased to announce the 11th instalment of the Triggs International Premium Vinifera Lecture Series. The lecture series brings a leading international viticultural speaker to provide their expertise through vineyard visits and a public lecture on key issues relating to premium vinifera grape production.

BASF is proud to
sponsor this national
lecture series.

2019 Featured Speaker

Vaughn Bell, PhD

Senior Scientist, New Zealand Institute for Plant and Food Research

Topic

A pathway towards leafroll virus management: The New Zealand Experience

Virus management, now more than ever, is a critical component of a premium vineyard system. The 2019 vineyard tour and public lecture will focus on potential strategies and methods used to mitigate grapevine viruses.

Join us for what will surely be a most informative two days.

Details, including speaker's biography and more, are posted at:
brocku.ca/ccovi

All sessions are free, however please
RSVP to <https://mailchi.mp/8452bc5549b5/2019triggs>
by August 9.

British Columbia Schedule:

Tuesday, Aug. 13—Vineyard Visits/Technical Workshop

Three sites - three topics. Participants are encouraged to attend all of the sessions depending on your schedule.

Lunch is sponsored by VineTech Canada

Topics Covered:

Site 1: Importance of virus testing

Site 2: Leafroll effects on vineyard performance

Lunch hosted at Miradoro Restaurant, at Tinhorn Creek

Site 3: Start clean—stay clean

Wednesday, Aug. 14—Public Lecture — 3 pm

Location: Summerland Research and Development Centre
4200 Highway 97, Summerland

Topic: A pathway towards leafroll virus management:
The New Zealand Experience

Reception to follow.
