

Brock University's Cool Climate Oenology and Viticulture Institute (CCOVI) is pleased to announce the 12th installment of the Triggs International Premium Vinifera Lecture Series. Celebrating 20 years of Triggs, the lecture series brings a leading international viticultural speaker to provide their expertise through vineyard visits and a public lecture on key issues relating to premium vinifera grape production.

2024 Featured Speaker:

Markus Keller, PhD

Professor of Viticulture, Washington State University, Research and Extension Center

BASF is proud to sponsor this national lecture series.

BC Okanagan Topic:

Vineyard recovery after a severe weather event

Evaluation and assessment of injury to develop a long-term sustainable recovery strategy.

Join us for two days of collaborative learning.

Details, including speaker's biography and more, are posted to brocku.ca/ccovi/ (Outreach).

All sessions are free, registration will be through the BC Wine Grape Council Annual General Meeting and Grower Day Website - [LINK](#)

Registration Deadline: August 2 (noon)

Okanagan Schedule:

Tuesday August 6 – Vineyard Visits/Technical Workshop

Three sites-three topics. Participants are encouraged to attend all sessions depending on your schedule. Lunch is included by rsvp is required.

Site 1: Blue Mountain, 2385 Allendale Rd, Okanagan Falls
