

**LEADERSHIP IN ENVIRONMENTAL SUSTAINABILITY INTERNSHIP
ENSU 3P91**

COURSE DESCRIPTION

Specific environmental sustainability problems or tasks identified by a community group, organization, or agency. Working under the supervision of the group, organization, agency and the Environmental Sustainability Research Centre (ESRC).

Restriction: Must consult the ESRC regarding permission to register.

Note: ENSU 2P01, ENSU 2P02, and ENSU 3P90.

The internship course allows students to pursue a specific project and/or task under the guidance of the ESRC Centre Administrator and a community partner. The ESRC has several innovative partnerships independent research under the guidance of a Brock faculty member. This course allows students a hands on experience working in the field with a specific community partner organization on a specific project or task related to environmental sustainability.

Students must fill in the form below and submit it to ensu@brocku.ca, along with a current copy of their resume and/or CV no later than one month prior to the start of a semester. The Centre Administrator will review the submissions and confirm project availability and registration in the course no later than two weeks prior to the course beginning. This course will be highly competitive and only 2 to 3 spaces will be available per semester.

An initial meeting with the Centre Administrator will be used to develop an explicit plan of study including a supervision plan, project and/or task objectives and rationale, additional project/task specific readings, and an outline of how the course will be evaluated. Normally the work includes several reflective evaluative components and a major task and/or project that will be evaluated by both the instructor and the community partner.
