A PhD student opportunity in Sustainability has been developed in response to on-going collaboration between the University of the Sunshine Coast (Australia) and Brock University (Canada).

Researchers from the Sustainability Research Centre (SRC) at the University of the Sunshine Coast (USC) and the Environmental Sustainability Research Centre at Brock University, have been collaborating for several years in the areas of global change, sustainability and resilience research, which has been formalised through a Memorandum of Understanding. To further strengthen this collaboration, a strategic PhD scholarship has been established in Sustainability, with a focus on sustainability issues that affect both southern and northern hemispheres. The PhD student will enjoy supervision by researchers from both USC and Brock and will spend time at both universities.

The successful student will be entitled to: (i) tuition fees scholarship; (ii) annual stipend plus top-up (value to be determined); and (iii) travel and operating budget (value to be determined).

For more information please contact Associate Professor Claudia Baldwin, Sustainability Research Centre, University of the Sunshine Coast via email CBaldwin@usc.edu.au.

Application deadline: September 14th, 2018.

Eligibility:

To be eligible for this scholarship, applicants must:

- hold a bachelor degree with First Class Honours, Master's degree, or be assessed by USC as having an equivalent or greater level of attainment;
- not hold an equivalent HDR qualification to that being applied for;
- recipients must maintain satisfactory progress as a full-time higher degree by research candidate at the University of the Sunshine Coast

Selection criteria:

- Research plan that aligns both with the SRC and ESRC. Project should address sustainability issue(s) relevant to both southern and northern hemispheres
- Publication record
- Capacity for supervision at both SRC and ESRC
- Most recent and relevant degree

Eligible programs:

Doctor of Philosophy

Number available:

One

Value:

Stipend commensurate with the Australian Postgraduate Awards rate, Tuition Fees and Overseas Health Cover for the standard duration of the program.
