Winter (D1 & D3 COURSES ONLY) Timetable WORKSHEET

This worksheet will help you to keep track of courses you wish to register in. Read over the schedule planning tips before building your weekly schedule, and remember to check out the [Undergraduate Calendar](#) to review your program requirements and [timetable of available programs](#) when creating a draft timetable. For each course component, record the course code, component type, and section number in the corresponding time slot. This worksheet can also be used to keep track of your registration progress, simply check off the time slot for courses you successfully register in.

Once you have registered in a course, the Course Locations and Times Screen will display a printable version of your schedule.
