Continuous	APPLICATION FOR MATCHING OR DISCRETIONARY VPR FUNDING	<p><u>Matching Funds</u></p> <p>In general, before requesting matching funding from the VPR, researchers must have first sought funding support from the researcher's home department, Faculty, or research centre. The typical order for seeking institutional support is first the researcher's department (or Centre/Institute, as appropriate), then Faculty Dean, then the VPR. To be eligible for VPR matching support, contributions from the Faculty or Unit should demonstrably be:</p> <ul style="list-style-type: none"> <li>- new funding committed specifically for the project forming the basis of an external application;</li> <li>- in the form of cash (in-kind contributions from Faculties or Units can not be matched by cash support from the VPR);</li> <li>- commensurate with the scope of the proposed activities (e.g., number of partners, intended outcomes, funding requested from external agency, etc.); and</li> <li>- confirmed in the submission to this online portal at least <b>4 weeks</b> prior to the external grant application deadline.</li> </ul>	<p>External funding programs often require or encourage cash and/or in-kind contributions from host institutions and partner organizations. The Vice-President, Research (VPR) has created this portal for researchers seeking;</p> <ul style="list-style-type: none"> <li>- matching funds to support an external grant application; and</li> <li>- discretionary grants, typically small amounts, for activities not connected to an external grant application.</li> </ul> <p>Applicants seeking funding from certain grant programs that require some level of matching support from the host institution are eligible to apply for matching funds from the VPR, as are those applying to programs for which there is a competitive advantage to demonstrating institutional support at the time of application.</p> <p>Researchers may also seek discretionary VPR funds in support of research, meetings and workshops, and equipment needs that are not directly connected with an external grant application.</p> <p><a href="#">Application for Matching or Discretionary VPR Funding</a></p>

		<p><u><i>Discretionary VPR Grants</i></u></p> <p>To request a discretionary VPR grant, the applicant may make an application through this portal. Discretionary VPR grants are available for activities not connected or supported by an external grant, including support for research meetings and workshops, equipment, travel, etc.</p> <p>Applicants are normally expected to seek some level of support from the Faculty Dean, Departmental Chair, or Unit Head in their request. It is expected that researchers will utilize other existing internal sources of funding before approaching the VPR. These sources include the Explore/Exchange Program, Match of Minds, and researchers' PER funds, which may be aggregated over a number of years to support larger expenses.</p>
