Overall Average	78.6%
Total new full-time year one undergraduate students enrolled in fall 2000	2,548
Total students reported above who graduated by 2007	2,003

Graduation Rates: The MTCU has calculated graduation rates using a single entering cohort of students and determining whether or not they graduated within seven

years. The methodology employed involves the selection of all new full-time, Year One undergraduate students on the official Fall 2000 enrolment file, who have a valid (and unique) student ID number, and were seeking either a bachelors or first professional degree. The subset was then matched against the records for students who received a degree (in any program) from the same institution during the most current seven year period (2001 to 2007).
