Hear From a Brock Student

“I was given the opportunity, through the Brock International Services and Programs Abroad and the Ontario Rhône-Alps exchange program (ORA), to study abroad in Grenoble, France for the duration of the school year. I cannot express my gratitude for being granted such an experience. In approximately nine months abroad, I enhanced my French

brocku.ca/exchanges

incalculably, grew to profoundly appreciate the culture and history of France, travelled more than I had in my entire life up to that point, made the most culturally diverse group of friends imaginable, grew ineffably as a person, and the list goes on. All of my experiences I now bring back to Brock University, and to my everyday life. I carry them with me and have only the most sincere thanks for the professional but ever-personable nature of the ORA administration and of course the Brock International crew, who both facilitated my transition into the life of a foreign student with ease and assurance. If you have the least bit of desire to live and study in Europe, I say be what you want to be and apply to one of Brock International's exchange programs. “

- Jacob (Concurrent Education Intermediate/Senior: French)
