

Downloading Ontario Base Data

1. From the Ontario Base Data fact sheet > Accessing the data, link to the OBM viewer
<http://www.geographynetwork.ca/website/obm/viewer.htm>
2. Zoom to the area of interest.

3. Click the FME download button. If you are prompted to login, create a user name and password or enter your existing login. The download options window appears.
4. Make the appropriate selections, click the checkbox to agree with the license terms and click the *Download Data* button.
