

A sample of Grants and Awards associated with Brock Institute for Electrophysiological Research:

NSERC USRA awards for undergraduates:

Olivia Lepine (Mercier laboratory) to study how temperature alters the ability of neuropeptides to modulate muscle contraction.

Bianca Opal (Cote laboratory) to study electrophysiological markers to sleep-related memory consolidation mechanisms

Faculty grants:

Hafer C & Segalowitz SJ: SSHRC: “New directions in the psychology of deservingness”, 2014-2019

Cote KA: NSERC Discovery Grant, “Neurobehavioural and physiological consequences of sleep deprivation in humans”, 2014-2019
