

# IMAGINED URBAN GARDENS

## Student Exhibition

Responding to the explorations of urban architecture and its materials in Teresa Carlesimo and Michael DiRisio: more light than heat, Imagined Urban Gardens also reflects on today's global warming and how we could live in the future. We dream of green spaces and pleasantly warm cities. Students in Visual Arts and Studies in Arts and Culture envision in text and image what could be in a livable world.

**Jan. 30 - March 1, 2020**

**Opening Reception:**

**Jan. 30, 2020 — 5 to 8 p.m.**
