The Small Walker Press is an initiative of the Centre for Studies in Arts and Culture (STAC) at the Marilyn I. Walker School of Fine and Performing Arts, Brock University.

We engage with authors, artists, and academics alike to produce small, innovative publications. We value interdisciplinary cooperation and publish collaborative projects in creative writing and the arts. We celebrate creative and analytical thinking, the pleasures of text and image, and design.

SWP books are art objects for a public interested in aesthetically pleasing books and creative expression.
