

# Posthumanism for Sustainability

How are posthumanism and sustainability linked? How has literature evolved in the last decade? The Posthumanism for Sustainability (PH4S) project addresses these questions by mapping posthumanist approaches to sustainability and maintaining a digital repository enabling future research efforts. This talk will discuss the results of the scoping review as the first peer-reviewed publication of this project and explain the aims and submission procedure of the repository.

**March 2nd, 2023 - 16:00-17:30 EST**

Join us in person: PLZ 600F, Brock University

Or attend virtually: [Livestream Link](#)

**PRESENTER:** Dr. Çağdaş Dedeoğlu is the founder of The Posthuman Lab and a founding co-editor of the Journal of Posthumanism. Currently, he teaches humanities and social science courses at Yorkville University. Also, he is a researcher at the University of Toronto, where he works on a project at the intersection of technology, politics, and posthumanism. Besides, he is an affiliated researcher at the Digital Life Institute's AI Implications Cluster, hosted by Ontario Tech University, Brock University's Posthumanism Research Institute, and The Center for Critical Research on Religion. Previously, he worked as an assistant professor of political science in Istanbul, Turkey, as well as a postdoctoral researcher at the University of Florida. He focuses on politics, ethics, and technology, with a particular emphasis on ecological transformation.
