

# CAMPS AT HOME

## Make your own stickers

### Materials:

- Drawing utensils (markers, pencil crayons, pens)
- Paper
- Packing tape
- Parchment or wax paper
- Scissors

### Steps:

1. Draw a picture you would like to turn into a sticker. This can be a cartoon character, a portrait, your name in bubble letters.
2. Cut out your drawing.
3. Cut a square piece of parchment paper about 2-3cm bigger than your drawing (Helpful tip: cut the square so that you can see the border of the parchment around your drawing).
4. Lay the parchment paper down and cover it fully with packing tape (sticky part on the parchment).
5. Place your drawing on top of the tape layer on the parchment.
6. Cover your drawing with another layer of packing tape.
7. Cut  $\frac{1}{2}$  cm around the border of your drawing - Make sure to leave space!
8. Remove the parchment paper on the bottom and you have your own sticker!

### Sticker Ideas:

- Use pictures from magazines or old books
- Decorate your water bottle and make sure you are drinking lots of water every day!
