Expected date of completion of degree requirements (not convocation date)	Year: _____ Month: _____		
Cumulative academic average (including Fall 2022) for all undergraduate work			
What would you like to do after graduation?	<input type="checkbox"/> Graduate school (specify): <input type="checkbox"/> Professional school (specify): <input type="checkbox"/> Other (specify): <input type="checkbox"/> Undecided		
Have you previously held an NSERC USRA award? If yes, indicate number of awards held and give location(s).	<input type="checkbox"/> No <input type="checkbox"/> Yes Number of awards: _____ Location(s): <input type="checkbox"/> Brock <input type="checkbox"/> other, specify:		
Term for which you wish to apply: (You must be able to work full-time for 14 to 16 consecutive weeks.)	<input type="checkbox"/> Summer 2023 (April/May–August) <input type="checkbox"/> Fall 2023 (August/September–December) <input type="checkbox"/> Winter 2024 (January–April)		
Name of proposed supervisor:			
Department:			
Select the agency (NSERC, CIHR or SSHRC) whose mandate best aligns with the research field of the proposal (natural sciences and engineering, or social sciences and humanities, or health). For further information, refer to the Selecting the appropriate federal granting agency .	<input type="checkbox"/> NSERC <input type="checkbox"/> SSHRC <input type="checkbox"/> CIHR		
Note that at the present time, CIHR and SSHRC USRAs are exclusively for self-identified Black student researchers.			

What would you like to do after you complete your undergraduate degree? If you are exploring options, what possibilities are you considering? How will your research experience contribute to attaining your goals or making decisions about your future? (Maximum of 2000 characters including spaces)

After discussion with your proposed supervisor, describe, in non-technical language, the research project you propose to work on and what your role will be. What outcomes of your project do you anticipate? All selection committee members from across different disciplines, who may not be experts in your project's specific research area, should be able to understand it. (Maximum of 2000 characters including spaces)
