

Townhouse Allowable Furnishings

Room Alterations (RCS - Administrative Infraction) pg. 38-39

Students are not permitted to alter their residences in anyway, including but not limited to: painting, wallpapering, installing shelves, hooks, mounts or removing window treatments. Students are not permitted to repair their own drywall nor install additional window treatments. Any furniture in addition to that provided by Brock is not permitted. The only exceptions to the furnishings rule are for specific items that are of an organizational nature (e.g. a small shelf or storage unit) and those items must be made of metal or plastic. This document lists allowable furnishings (with pictures) in this document for Townhouse style residence common areas.

Students who cause damage to their room, unit or common space due to any alterations will be responsible for the costs associated with the damages incurred. Click [here](#) for more information

Why am I only allowed to bring certain items?

- Your room/unit is already fully furnished. This means you don't have the costs associated with buying new furniture and the hassle of trying to figure out what will fit in the space you have. Furniture can also be heavy / difficult to move with potential to cause damage.
- Bringing in additional/oversized furniture can clutter the space and become a fire hazard. It increases the fire load and can pose difficulties with evacuation in emergencies.
- Bringing in used or "found" furniture can bring unwanted pest control issues into the residence.
- These proactive steps help us to keep our residences safe, clean, and pest free.

Why don't we allow "wood" / fabric furnishings from outside of Residence?

Wood and fabric furniture are often difficult to keep clean. They also have many seams and joints that can hide unwanted pests (like bed bugs). We maintain our Brock furniture and sanitize all mattresses and fabrics (like couches and carpets) to ensure there are no pest issues and furniture is properly cleaned prior to your arrival.

What is considered "wood"?

When we say wood, we are also referring to laminates and pressboard. Their designs and uses are similar to that of wood.

What happens if a non-allowable item is found in my room/unit?

Infractions are dealt with through a variety of mechanisms depending on the severity of the incident. See the [RCS](#) under Administration & Enforcement of Residence Community Standards.

Allowable Furnishings

For Townhouse Common Areas

-The following items are permitted in the shared space of the Townhouse style residences-

Shelf Unit (Plastic or Metal)

- Unit cannot be affixed to walls or surfaces. Maximum of 5 shelves, and cannot be to a height that is determined unsafe by Residence Facilities Staff. Unit must be assembled in a secure manner.
- Can be used in the kitchen, vestibule, living room, or storage area only.
- Ensure basement hatch access door and vents are not blocked/covered by shelving.

TV Stand (Metal)

- Must be open/no cupboards or drawers, and must be used in the living room area only
