OCTOBER 2009

Official Newsletter of Brock Leaders Citizenship Society

## THE LEADER LINK

Foundations in Leadership

The Foundations in Leadership Series is designed to give students like you, self awareness and many of the basic skills used by effective leaders. With the completion of each of the practicum levels, you will add to the reservoir of leadership tools at your disposal and enhance your competence when assuming leadership positions. BLCS members are required to take one level (Bronze, Silver, Gold or Platinum) of leadership per year. The new members will be taking the Bronze course together. It is necessary for each member to put their schedule online on the website in order to find a time when everyone is available. The importance of the program for BLCS members is to build on previous leadership experiences with constructive skills. Bronze level builds foundations in interpersonal communications

## **Fall Preview Day**

The following volunteer opportunity will be available for BLCS members at a Brock event called Fall Preview Day. The event takes place Sunday, Nov. 8th and it will be a full day commitment. It's a special event to provide prospective students with the unique opportunity to become part of the Brock community, visit our campus, and experience Brock first-hand. There are several options available including being a Tour Guide for prospective students and BLCS members are invited to work with Student Awards at their booth to meet both the parents and prospective students.
