Senate Committees

Report to the Information Technology & Infrastructure Committee

Information Item

Topic: Classroom modernization update

Date of Meeting: October 26, 2026

Rajiv Jhangiani, Vice Provost, Teaching and Learning

---

1. Purpose of the Report

- To provide an update to members of IT&IC concerning completed, ongoing, and planned classroom modernization projects

2. Background

- In July 2025 the Learning Spaces Advisory Group recommended the renovation of Welch Hall 222 and 223. The work is now complete, and the rooms are in partial service.
- Plaza 310 has been converted from a Mac lab to a PC lab.
- In October 2025 the Learning Spaces Advisory Group recommended the mergers of EA 104 and EA 106, MCD 403 and MCD 404, WH 8J and WH 8G, and WH 205 and WH 206. The work in EA 104 has been completed and was recently featured in a Brock News article. The remaining spaces are expected to be completed in January 2027.
- Furniture upgrades (new tables and chairs) are being planned for STH 202, STH 203, and STH 204, as they have passed their useful lifespan and parts can no longer be procured. Following the upgrades, all three classrooms will have improved accessibility without significant loss in capacity. These projects will be completed prior to the start of the Fall 2027 term.
