Science day trips

Our science program offers classes a day in a University science lab. Where students will participate in 3 of our science stream modules which include: Physics, Biology, Chemistry, Ecology, Sustainability and Kinesiology.

Physics

Experiment with static electricity, light and circuits.

Biology

Learn about living organism and test your surgery skills by removing a tumor from a brain.

Chemistry

Experience a real university lab as you mix Chemicals and watch their reactions.

Ecology

Dissect an owl's dinner to understand food webs.

Sustainability

Test water quality and learn about some of the factors effecting climate change

Kinesiology

Test your reaction time, lung capacity and more in this Sports Science Workshop

Grades: 4-8

Cost: \$30 /per student
